Dear Reader,

The February 2012 issue of "Research Updates | Homoeopathy" is in front of you, for information, critical appraisal and comments. It has always been an endeavor to gather and present authentic information, and the same has been taken care of in this issue also. This issue is an important issue because of:-

- Introduction of new sub-section "**Drug Proving (HPT) & Standardization**" nested under Research Studies. Studies published in homoeopathic as well as other systems relating to drugs used in homoeopathy will be included in this section. Since it is a new section, contributions are invited.
- **The Disclaimer** to this portal has been revised and updated. [See Disclaimer](#).
- Indexing of open access articles published in 2010 in relevant sections of Research studies, with proper citation including source(s) and links. This is also expected from readers to give full credit to source and authors.
- Updated Email policy: The update e-newsletter will be sent on day 01 of every month.
- Introduction of *downloadable pdf of e-newsletter* form this issue onwards!
- Web-safety of this portal has now been authenticated by [Norton Safe Web](#).

Happy reading!

The CAM-Quest® Database: Quick-Finder for Homeopathy and other types of complementary medicine

Complementary and alternative medicine (CAM) is used by more than 100 million citizens in the European Union (EU). More than ever, clinical research in this field is important for creating a solid and reliable base for CAM treatments. Recently, a new online database portal (CAM-Quest®) with more than 16000 records has been launched: it is searchable for clinical trials, systematic reviews and meta-analyses in the field of CAM. Among these, the user can search for roughly 10000 records in the field of Homeopathy. [Read more](#).....

Usage of Nosodes in Homoeopathy
